what is collect-a-car ?

We are a newly formed company, based in Leeds. Many of you will have seen a similar company based in London on Top Gear. In essence we are a fold up Scooter Company that collects you and your car when you're over the drink drive limit.

how does it work

We will put a fold up scooter inside a secure padded holder and then into your boot. We will then drive you and your car home, dropping your friends off en route to your destination, meaning you and your car are at home the following morning. We then unfold our scooters and continue on our way.

this service means to you:

- 1:** You don't have to pay for a Taxi to your initial destination.
- 2:** You don't have to collect your car the following day.
- 3:** No overnight parking charges or potential parking fines.
- 4:** You can drive to your destination at your convenience. No paying or waiting for Taxis.
- 5:** If you choose not to drink when you go out, there are no Taxi fares that evening.
- 6.** We are fully insured to drive your car, meaning no financial risk to you.
